

New Baby Insurance Coverage

Congratulations of your new arrival!

If you have not already notified your insurance company of your new family member, it is necessary that you do so now; you only have 30 days to add your child to your existing insurance company.

Insurance coverage is determined by which plan/plans your employer offers and you enroll in. We encourage you to contact your human resources department or employer about the specifics of your plan, including well-baby exams and immunizations.

Thank you!
