Preventative (Well) appointments/check-ups are scheduled anticipating that they are going to be seen as a preventative/wellness visit only. However, occasionally there may be separate identifiable issues/diagnosis and problems addressed during the visit. Your insurance company may require you to pay a copay or deductible depending on your coverage benefits. You may contact your insurance company/carrier if you have any questions.

Thank you for understanding. Pediatric Healthcare Associates is here to serve our patients. If there is anything that we can do to assist you, please do not hesitate to call our billing office at 318-212-2920.

Thank you,

Pediatric Healthcare Associates
